Duty of care and safety

- Professionally trained, background-checked chauffeurs, with ongoing training
- GPS vehicle monitoring and 24/7 dispatch tracking every trip from pickup to drop-off
- Real-time flight and train tracking; pickups move with actual arrival times
- Fleet maintained by certified mechanics and inspected regularly
- If something goes wrong, dispatch reroutes, sends a replacement vehicle and notifies your contact
- Trip records for every ride: who, when, where and which chauffeur

Corporate accounts and billing

- One account for every ride your company books, with consolidated monthly billing
- Authorized bookers: assistants, travel managers and event planners can book for any traveler
- Traveler profiles with emergency contacts and special requirements
- Approved vehicle classes by traveler level
- Same booking, contact and invoice for rides outside the DC region, handled through vetted affiliates
